

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## ISSUANCE OF PATENTS TO CERTAIN LANDS IN OREGON.

COMMITTEE ON THE PUBLIC LANDS,  
HOUSE OF REPRESENTATIVES,  
Washington, D. C., July 24, 1912.

The committee met at 11 o'clock a. m., Hon. Joseph T. Robinson (chairman) presiding, a quorum being present:

Bill under consideration is as follows:

[S. 3225, Sixty-second Congress, second session.]

AN ACT Providing when patents shall issue to the purchaser or heirs of certain lands in the State of Oregon.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That all persons who have heretofore purchased any of the lands of the Umatilla Indian Reservation, in the State of Oregon, and have made or shall make full and final payment therefor in conformity with the acts of Congress of March third, eighteen hundred and eighty-five, and of July first, nineteen hundred and two, respecting the sale of such lands, shall be entitled to receive patent therefor upon submitting satisfactory proof to the Secretary of the Interior that the untimbered lands so purchased are not susceptible of cultivation or residence, and are exclusively grazing lands, incapable of any profitable use other than for grazing purposes.

SEC. 2. That where a party entitled to claim the benefits of this act dies before securing a patent therefor, it shall be competent for the executor or administrator of the estate of such party, or one of the heirs, to make the necessary proofs and payments therefor to complete the same; and the patent in such cases shall be made in favor of the heirs of the deceased purchaser and the title to said lands shall inure to such heirs, as if their names had been especially mentioned.

Passed the Senate March 16, 1912.

Attest:

CHARLES G. BENNETT, *Secretary.*

By H. M. Rose, *Assistant Secretary.*

The CHAIRMAN. This hearing is on S. 3225, by Senator Poindexter, providing when patent shall issue to the purchaser or heirs of certain lands in the State of Oregon. What area of lands will probably be affected by the bill, Mr. Lafferty?

Mr. LAFFERTY. It is only a small portion of one county, lands that the Umatilla Indians did not need, and there was an act passed providing that they might be opened up and sold out to white people in small tracts.

The CHAIRMAN. Have you a copy of that act available?

Mr. LAFFERTY. Here is a report on this bill from Mr. Samuel Adams, Acting Secretary of the Interior Department, under date of August 23, 1911, which states as follows:

The provisions of section 1 of the bill under consideration are contained in the act of Congress approved June 29, 1906 (34 Stat., 611), and merely extend the provisions of the latter act.

The CHAIRMAN. One minute. What does he mean by that? He says provisions contained in the act and merely extended. How extended?

Mr. LAFFERTY. Here is how extended. The first clause of the bill reads: "That all persons who have heretofore purchased," etc. That

is the identical language of the law already on the books, except that that language dates from June 29, 1906, therefore if it is reenacted it will date from the date of its reenactment, and the Secretary in his report states:

The second section provides that where a party who is entitled to the benefits of said acts dies before securing patent for the lands purchased the executor or administrator of his estate, or one of his heirs, shall make the necessary proofs.

Now, all I know of the situation is that the county assessor of Umatilla County, Nelson Strain, has been writing to me ever since I have been here asking me to get this bill passed, extending the provisions of that act of June 25, 1906. He states that that act has been construed to cover only cases where proofs had been made from the date of its enactment, whereas a great many of those purchasers had not yet made proofs and, furthermore, some of the original purchasers have died, and under the original act they can not prove up.

Now, some parties interested wrote to Senator Poindexter, and he introduced the bill in the Senate. I have the identical bill pending here in the House, which I will abandon if this bill is passed.

Mr. MONDELL. Mr. Lafferty, did the law under which these lands were granted or ceded or entered provide for their cultivation?

Mr. LAFFERTY. Yes; the original act under which the lands were ceded and opened was slightly modified by this act of June 25, 1906.

Mr. MONDELL. Well, we are waiving in this act the requirement of cultivation, apparently.

Mr. LAFFERTY. Yes.

Mr. MONDELL. Now, what was that requirement of cultivation in the original act?

Mr. LAFFERTY. The original act required the same amount of cultivation and residence as is required on any homestead.

Mr. MONDELL. Well, there has been no definite requirement of cultivation?

Mr. LAFFERTY. No definite requirement, but required that they should cultivate a portion of the land, and the department has held that they must cultivate a very material part of it; but these are semiarid lands, they are desert lands.

Mr. MONDELL. What has been the holding in this former bill? Are these homestead settlers?

Mr. LAFFERTY. They are purchasers. They paid cash for the land.

Mr. MONDELL. Do they make homestead settlers?

Mr. LAFFERTY. Yes; and have the qualifications of the homestead entrymen.

Mr. MONDELL. How is the department construing this act; that it relieves them from all requirements of cultivation and grazing?

Mr. LAFFERTY. Yes, if they pay cash; but they will not permit this act to apply to purchasers where proofs have not been made prior to the passage of this act of June 29, 1906, and this is merely to extend the provisions of that act, and also take care of those areas of a purchaser who has died in the meantime; and it has passed the Senate, favorably reported by the Interior Department, and only covers a small portion of the land in Umatilla County. They say there is no objection to the bill.

The CHAIRMAN. I think there is nothing further, Mr. Lafferty.

Thereupon, at 11.15 o'clock a. m., the hearing adjourned.
